There is a real need to cut costs wherever possible, yet we cannot afford to for get about environmental issues. Streamlightrechargeable LED flashlights make good economic environmental sense. Over time they cost significantly less to operatedecreasing the amount of batteries used, relieving the problemof battery disposal.

With Streamlight LED rechargeable flashlights, your company will not only save on the cost of batteries. Since LEDs have a long life and won't burn out or won't break, they never need to be replaced. Your light will always be ready when you need it.

More powerful and more economical, Streamlight rechargeable LED lighting tools pack a lot more power with ultra-bright white beams and long illumination times. They are more dependable and more cost-efficient than a "D" cell flashlight.
