YOUR SAFETY IS VERY IMPORTANT TO US

STREAMLIGHT® GIVES YOU MORE SAFETY-RATED LIGHTS FOR MORE OPTIONS IN HAZARDOUS LOCATIONS.

Streamlight flashlights are tested and certified by the world’s leading independent laboratories — including Underwriters Laboratories, ATEX, Demko, and the Mine Safety and Health Administration (MSHA). This testing is your assurance that the Streamlight flashlight you choose will be safe in the environment(s) in which you’ll be using it.

DIVERENT LIGHTS FOR DIVERENT HAZARDOUS LOCATIONS.

The National Electric Code (NEC) defines hazardous locations by “class” and “division.” There are three classes:

- CLASS I locations are made hazardous by the presence of flammable gases, liquids or vapors.
- CLASS II locations are hazardous because combustible dusts are present.
- CLASS III locations contain easily ignitable fibers or flyings.

The “Division” designation refers to the likelihood that ignitable concentrations of flammable materials are present. There are two divisions:

- DIVISION 1 designates an environment where ignitable concentrations of flammable gases, liquids, vapors or dusts can exist some of the time or all of the time under normal operating conditions, or where easily ignitable fibers and flyings are manufactured, handled or used.
- DIVISION 2 locations are where ignitable concentrations are not likely to exist under normal operating conditions or where Class 3 materials are stored or handled.

Hazardous classes are further defined by “groups” based on the physical properties of their combustible materials. These groups include (but are not limited to):

- GROUP A: Acetylene
- GROUP B: Hydrogen
- GROUP C: Ethylene, carbon monoxide
- GROUP D: Propane, gasoline, naphtha, benzene, butane, ethyl alcohol, acetone, methane
- GROUP E: Metals including aluminum, magnesium (Div. 1 only)
- GROUP F: Carbonaceous dusts including coal, carbon black, coke
- GROUP G: Dusts not included in E and F including wood, plastics, flour, starch or grain dusts
YOUR SAFETY IS OUR TOP PRIORITY

Since the most extreme hazardous conditions are often in dark places, Streamlight has developed a complete line of Class I, Division 1, safety-rated lighting tools approved for use in hazardous environments.

STREAMLIGHT’S HAZ-LO SERIES OF LIGHTING TOOLS PROVIDE PEACE OF MIND WITH A DIVISION 1 RATING.

When working in a Division 1 area, we expect explosive atmospheres to be present. Streamlight’s HAZ-LO product line is suitable for use in these locations. While outfitting your crew with Division 1 level tools, it is important to note Class, Group and Temperature code requirements to select the correct flashlight for specific applications.

WHY ARE SAFETY RATINGS IMPORTANT?

There are several types of locations in which it can be extremely dangerous to use flashlights that have not been specifically designed and approved for that environment. These are areas where fire or explosion hazards may exist due to the presence of flammable gases, liquids, vapors, dusts, or ignitable fibers or flyings. If you plan to use a flashlight in any potentially hazardous location, it is critical that your light be safety-rated for that specific environment.
Flashlight Applications and Beam Patterns

Having the right flashlight that meets your lighting needs is important. That’s one of the reasons Streamlight developed three series of lights: Tradition, High Lumen (HL) and High Performance, High Lumen (HPL). Each series offers a different balance of features and can be used for a variety of applications.

<tr>
<td></td>
<td>• More light on your target at a distance</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Meant for general, multi-purpose use, these lights are designed for the broadest range of lighting applications at the best value.

Gives you maximum illumination, providing full situational awareness by delivering extraordinary brightness in a wide beam pattern. These lights are ideal for smaller areas where you need a lot of light, but not an exceptionally long reach.

Ideal for down-range applications requiring optimal beam reach, as these flashlights throw light a long distance.

Headlamp Beam Patterns

There are times when you need both hands to complete a task so a headlamp is the best lighting tool to have in the moment. As stated above, having the right flashlight that meets your lighting needs is important. Streamlight offers several headlamps from which to choose to best meet your requirements.

Double Clutch USB - spot or flood beams
ProTac HL Headlamp - high lumen beam
Bandit - bright flood beam
Septor - soft flood beam
Argo - long-range beam
Trident - combination of distance and flood beams
TWO DUAL BEAMED LIGHTS FOR SAFER SITES.

Prevent slips, trips and falls with the Dualie® 2AA and Dualie® 3AA. Dual beams illuminate what’s in front of you and right at your feet. Intuitive activation allows you to use beams independently or together. Intrinsically safe and virtually indestructible, both lights are safety rated for the harshest Class 1, Div. 1 environments. STREAMLIGHT.COM
See what’s ahead of you and right at your feet with the intrinsically safe Dualie® 2AA. This compact flashlight features two beams that can be used simultaneously or individually as needed: a front-facing spot beam and a downward cast flood light. The two beams provide multi-directional lighting to help prevent slips, trips and fall. This flashlight is safety-rated for Class 1, Div. 1 environments and even includes a magnet on the tail end for hands-free use.

Work in confined spaces? Mount to your hardhat for hands-free use.

Simultaneous spot beam and laser pointer illuminate your work area and pinpoint out-of-reach objects.
**THE DUALIE® 2AA, DUALIE® 3AA AND THE DUALIE® 3AA LASER**

**DIV. 1, INTRINSICALLY SAFE, DUAL BEAMS, HANDS-FREE & INCREDIBLY VERSATILE.**

---

### DUALIE® 3AA

**SPOT/FLOOD COMBO 245 LUMENS**

See what’s ahead of you and right in front of your feet with the Dualie 3AA. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls. Intrinsically Safe - Class I & II, Div. 1.

Use with #68089 Polymount Kit for hands-free lighting (see p. 12 for more information).

**BATTERY:** 3 “AA” alkaline or lithium

**SIZE:** 7” (17.78 cm), 7.5” (19.05 cm) - Magnetic Clip option

**WEIGHT:** 6.8 oz (193 g); 7.1 oz (201 g) - Magnetic Clip option

**COLOR:** Yellow or Black

---

**Features a forward facing spot beam and a downward flood light - use individually or at the same time.**

**Magnetic clip with integrated hang hook for hands-free use.**

---

### DUALIE® RECHARGEABLE

**SPOT/FLOOD COMBO 275 LUMENS**

See what’s ahead of you and right in front of your feet with the Dualie Rechargeable. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls. A magnetic clip also features a hang-hook for methods of hands-free use. Save on battery costs - it’s rechargeable! Intrinsically Safe - Class I & II, Div. 1.

Use with #68089 Polymount Kit for hands-free lighting (see p. 12 for more information).

**BATTERY:** 3 “AA” alkaline or lithium

**SIZE:** 7” (17.78 cm); 7.5” (19.05 cm) - Magnetic Clip option

**WEIGHT:** 6.8 oz (193 g); 7.1 oz (201 g) - Magnetic Clip option

**COLOR:** Yellow or Black

---

**Features a forward facing spot beam and a downward flood light - use individually or at the same time.**

**Magnetic clip with integrated hang hook for hands-free use.**
### 2AAA Propolymer® HAZ-LO®

The 2AAA ProPolymer HAZ-LO is the perfect choice when you don’t need a large light, but don’t want to compromise on brightness or run time. At only 1.9 oz., it is easy to carry in your pocket or, if you have the optional rubber helmet strap accessory, to wear on your hardhat when a job needs both hands. Bring this light with you when you need to go check a meter, the serial number on a furnace or the part number off a fitting.

- **LUMENS:** 60
- **CANDELA:** 800
- **DISTANCE:** 57m
- **RUN TIME:** 16h

**BATTERY:** 2 “AAA” alkaline

**SIZE:** 5.4” (13.7 cm)

**WEIGHT:** 1.9 oz (54 g)

### 2AA Propolymer® HAZ-LO®

Lightweight flashlight with reasonable distance capability (96m) - a good choice for operations crews who need a general purpose light. It’s compact enough to fit in your pocket with a durable, super-tough nylon housing that beats out most entry-level flashlights. IPX7 waterproof to 1m for 30 minutes. Dust and water protected. 1m impact-resistance tested.

Use with #68089 Polymount Kit for hands-free lighting (see p. 12 for more information).

- **LUMENS:** 65
- **CANDELA:** 2,300
- **DISTANCE:** 96m
- **RUN TIME:** 24h

**Permissible Flashlight. Approval No. 20-A140002-0. Tested for Intrinsic Safety in Methane-air mixtures only.**
**4AA PROPOLYMAX<sup>®</sup>**

Super-bright - 300 lumens

All weather durability and high performance are key features of a general purpose utility light. The 4AA ProPolymax is a tough as nails, super-bright lighting tool that will cut through the darkness and endure all kinds of hard work. IP67 dust-tight and waterproof to 1m for 30 minutes; IPX4 for water spray - perfect for use in damp, dirty, grueling environments. TEN-TAP<sup>®</sup> Programming allows you to customize the light output to best suit your needs: high/low/strobe, high only or low/high.

Use with #88899 Polymount Kit for hands-free lighting (see p. 12 for more information).

**BATTERY:** 4 “AA” alkaline

**SIZE:** 7” (17.78 cm)

**WEIGHT:** 8.2 oz (233 g)

**COLOR:** Yellow

68820 with alkaline batteries - Yellow

---

**3C PROPOLYMER<sup>®</sup> HAZ-LO<sup>®</sup>**

The 3C ProPolymer HAZ-LO’s larger size makes it suited for situations where gloves are typically worn and it features a strong spring-loaded clip to keep it in your pocket or tool bag, as well as a push-button tailswitch for one-handed operation. IP67 rated for dust-tight and waterproof to 1m for 30 minutes; sealed switch protected from battery leakage; spring-loaded pocket clip grabs onto belts and gear.

**BATTERY:** 3 “C” alkaline

**SIZE:** 9.3” (23.62 cm)

**WEIGHT:** 13.9 oz (394 g)

**COLOR:** Yellow

33820 without batteries - Yellow

### PropolyMount Kit

Poly Mount Kit #68089 - includes pieces to mount to hardhats using MSA V-Gard slot or self-adhesive mount.

Clips onto hardhats
(hardhat not included)

Fits:
- Dualie 2AA
- Dualie 3AA/3AA Laser
- Dualie Rechargeable
- 4AA ProPolymax
- 2AA ProPolymer HAZ-L0
- PolyTac/PolyTac HP

Adheres to side of hardhat
(hardhat not included)
Juggling a light when you’re trying to work can be a hassle. When you wear a headlamp such as the 3AA HAZ-LO, you can have both hands free and still have the light you need for the job. Engineered to meet the stringent requirements of Division 1 locations, it gives you exceptional light output (120 lumens) and a long run time while remaining so lightweight – 7.1 ounces – that you’ll barely know you’re wearing it.

**BATTERY:** 3 “AA” alkaline  
**WEIGHT:** 7.1 oz (202 g)  
**COLOR:** Yellow

---

When a Division 1 work environment has tasks that require the use of both hands, the Septor HAZ-LO is the headlight of choice. It produces a soft flood light that is designed to minimize eye strain. It offers low and high lighting modes and a 90° tilting head so you can aim the light where you need it. Class I & II, Div. 1 safety rated.

**BATTERY:** 3 “AAA” alkaline  
**WEIGHT:** 5.5 oz (156 g)  
**COLOR:** Yellow

---

**LUMENS:** 85 20  
**CANDELA:** 620 150  
**DISTANCE:** 50m 24m  
**RUN TIME:** 8h 50h

---

When using the Septor HAZ-LO headlamp, you can have both hands free and still have the light you need for the job. Engineered to meet the stringent requirements of Division 1 locations, it gives you exceptional light output (120 lumens) and a long run time while remaining so lightweight – 7.1 ounces – that you’ll barely know you’re wearing it.

---

Includes a rubber head strap that ensures a non-slip grip for hardhats.
The Trident is another option for when you’re worried about juggling your tools and a Div. 1 flashlight. This headlamp’s 90° tilting head can help reduce neck fatigue, while giving you the use of both hands when lifting, carrying and making repairs. It combines a single, distance oriented C4® LED with three ultra-bright high-intensity flood LEDs, giving you multiple lighting choices in a single headlamp. Class I & II, Div. 1 safety rated.

Whether you’re climbing, making repairs, troubleshooting or carrying supplies, the last thing you want to worry about is carrying a flashlight. That’s why a headlamp like the versatile Argo HAZ-LO is a good choice. Low and high brightness levels give you a choice of lighting options to suit your needs: Low for extended run time, high for super-bright, far-reaching beam. Class I & II, Div. 1 safety rated.

The Double Clutch USB gives you the flexibility of shifting between beams and modes to fit your task, as well as choosing your battery source. It is also easy to use, even with gloves – just a quick twist of the facecap turns the light on and off or changes the output from spot to flood.

**BANDIT®**

The Bandit is an ultra-lightweight, weather-resistant, personal area/work light featuring a large, easy-to-use push button and a lithium polymer rechargeable battery. It includes a handy snap-in clip adaptor to attach the light to a pocket or lapel or clip it to the visor on a ball cap; it also adds additional downward adjustability. High, low and emergency flash modes.

Includes a rubber head strap that ensures a non-slip grip for hardhats.

This is the perfect rechargeable headlamp for when your task requires both hands and a bright light with a wide, long-range beam. 90° tilting head reduces neck fatigue. TEN-TAP® Programming lets you choose from three operating modes. IPX4-rated for water resistance; 1m impact-resistance tested. Multi-fuel capability: accepts rechargeable lithium ion battery, 18650 rechargeable battery or two CR123A lithium batteries.

**BATTERY:** Rechargeable lithium ion, a Streamlight rechargeable 18650 or 2 CR123A lithium
**WEIGHT:** 9.1 oz (230g)
**COLOR:** Black

---

**18650 CHARGER KIT**

Streamlight’s rechargeable 18650 batteries provide an alternate power source for Streamlight products that accept them.

Two bay 18650 battery charger can recharge one 18650 battery in as little as 3.5 hours or two batteries in 6.5 hours. Features dual input power sources, accepting either 5V USB power or 12V DC power.

Models available with charger, two 18650 batteries and either a 120V AC/micro-USB adapter or custom micro-USB cord, depending on model.

**18650 CHARGER KIT**
**CHARGER SIZE:** 4.5” (11.4cm)
**CHARGER WEIGHT:** 2.4 oz (68g)
**BATTERY:** 18650 button top lithium ion
**BATTERY SIZE:** 2.75” (7 cm)
**BATTERY WEIGHT:** 1.7 oz (48g)

---

**EPU-5200™**

Keep your USB flashlights and mobile devices powered up and ready.
You can clip the electronic power unit to a vest and take it anywhere.
It’s lightweight, yet rugged enough to stand up to almost anything.
IPX4 water-resistant. It’s also a flashlight!

**BATTERY:** Lithium ion
**SIZE:** 4.45” (11.3 cm)
**WEIGHT:** 5.4 oz (153g)
**COLOR:** Black

61420 with alkaline batteries and elastic headstrap – Clam - Yellow
61421 with alkaline batteries and elastic headstrap – Box - Yellow
61422 with alkaline batteries, elastic headstrap, rubber hard hat strap and 3M™ Dual Lock™ – Box - Yellow

ENDURO®

Features an adjustable rubber/elastic combination head strap and a clip that attaches to the brim of your hat, coat lapel or car visor. Unbreakable lens; waterproof to 1m for 1 hour. Impact-resistant housing – drop-test verified. Maximum light output throughout battery life.

BATTERY: 2 “AAA” alkaline
WEIGHT: 2.75 oz (78.5 g)
COLOR: Black

61400 with alkaline batteries-elastic strap and visor clip – Black

PROTAC HL® HEADLAMP

635 LUMENS

When your task requires both hands and a bright light with a wide, flood beam, reach for the ProTac HL Headlamp. It produces 635 lumens of a bright, wide flood light. With a 90° tilting head to aim the beam, you’ll have maximum comfort and stability whether you’re using the rubber hard hat strap or the adjustable elastic head strap.

BATTERY: 2 CR123A lithium
WEIGHT: 6.6 oz (187 g)
COLOR: Black

61304 with lithium batteries and elastic and rubber straps—Black

Includes a rubber head strap that ensures a non-slip grip for hardhats.

BATTERY HIGH MEDIUM LOW
LUMENS: 635 105 20

RUN TIME: 6h 14h 38h

HEADLAMP SERIES

Includes rubber/elastic head strap and a clip that attaches to the brim of your hat, coat lapel or car visor.
The Trident is another option for when you’re worried about juggling your tools and a flashlight. This headlamp’s 90° tilting head can help reduce neck fatigue, while giving you the use of both hands when lifting, carrying and making repairs. It combines a single, distance oriented C4® LED with three ultra-bright high-intensity flood LEDs, giving you multiple lighting choices in a single headlamp. It’s also safety rated: Class I & II, Div. 2.

Ideal for up-close lighting

When a job requires the use of both hands, the Septor is the headlight of choice. Specifically engineered to maximize run time, it offers 3 lighting modes (1, 3 or 7 LEDs) and a 90° tilting head so you can aim the light where you need it. The Septor produces a soft flood light that is designed to minimize eye strain and is ideal for up-close work. It’s safety rated: Class I & II, Div. 2.

Whether you’re climbing, making repairs, troubleshooting or carrying supplies, the last thing you want to worry about is carrying a flashlight. That’s why a headlamp like the versatile Argo is a good choice. Three brightness levels give you the best lighting options to suit your needs: High for a super-bright, far-reaching beam, medium for longer run times, low for extended run times. It’s safety rated: Class I & II, Div. 2.

Ideal for long-distance lighting

**75430 120V AC/12V DC Smart Charge - Black**

**77553 120V AC/12V DC Smart Charge - Black**
Multitaskers, say hello to your dream multi-function work light. Five lights in one: It’s a droplight; it’s a hands-free light; it’s a bright white light; it’s a light with Streamlight’s Color-Rite Technology; it’s a UV light. Cool white LEDs provide bright, white light for general illumination needs. 90 CRI LEDs with Color-Rite Technology help to distinguish between similarly colored wiring and a UV LED is ideal for leak detection.

---

25323 with 120V AC/12V DC 2 Sleeves - Yellow
Perfect for maintenance, the versatile Knucklehead keeps your hands free to do your job. A 210° articulating head that rotates 360° lights any area needed. It stands up, lays down, attaches to belts/harnesses, hangs from its hook, or adheres to a metal surface with its super-strong magnet. No more juggling your flashlight and your tools to complete a task.

High and low modes accommodate your lighting needs throughout your shift. Emergency flash signals your location. Moonlight mode provides low-level lighting with 20 days of run time for emergency situations.

Flood models produce soft, even area lighting that won’t tire your eyes. Spot models produce a tight, far-reaching beam to locate hazards from a distance.

Rack meets requirements of 1901-14.1.10.2 (2016) mounted in any position.

**Haz-Lo Division 1 Lighting**

Permissible Flashlight App. No. 20-A140001-0

Class I & II Division 1, Groups C,D,F,G; Class III; T-Code: T4; Exia; Non-Incendive: Class I Division 2; Groups A,B,C,D; T-Code T4

**Nemko**

Rack meets requirements of 1901-14.1.10.2 (2016) mounted in any position.
The Survivor is the leading Class 1, Div. 1 right angle light. Popular among firefighters, this clip-on flashlight has a slim, low-profile design and bezel to prevent snagging on equipment and gear. Its spring-loaded clip easily attaches to belts and harnesses, and the rubber dome push button switch is designed for easy operation even with heavy gloves.

Four lighting modes include high, low, flash and moonlight. The Survivor has two interchangeable Smoke Cutter plugs to help create your desired beam pattern. The black plug significantly reduces peripheral light for a tighter beam. The amber plug reduces peripheral light and eye fatigue caused by glare. Without either plug, you get the traditional Survivor beam.

All openings are O-ring sealed for weather-resistance. IPX4 water-resistant. 2m impact resistance tested. Unbreakable, scratch-resistant polycarbonate lens.

Available in both alkaline and rechargeable models.

BATTERY: Accepts rechargeable NiCd battery or 4 "AA" alkaline batteries

PORTABLE SCENE LIGHT

5,300 LUMENS

Rapidly deployed and easily stowed, the Portable Scene Light brings 5,300 lumens to your work area. With its narrow footprint and 72” extension pole, this versatile scene light goes almost anywhere, from wide open places to tight, confined spaces such as stairwells. Stabilization legs provide balance on uneven surfaces so rugged terrain poses no problem for set up. It’s extremely durable and water-resistant, which makes it ideal for bad weather use. The perfect lighting choice for power outages and egress areas where equipment needs repair or for clean up after flooding conditions and other natural disaster related activities.

BATTERY: Zero-maintenance 12V, 14.4 Ah sealed lead acid.
SIZE: 22” (55.88 cm)
WEIGHT: 25 lb (11.3 kg)
COLOR: Yellow

LUMENS: 5,300 2,500 1,300
DISTANCE: 410m 292m 215m
RUN TIME: 4h 9h 18h

Special Features:
- Full deployment in 30 seconds
- Pole extends to 72”; designed to resist 40mph wind continuous in all directions with head fully extended
- Unlimited run time using AC/DC power source
- IP67 rated; dust-tight and waterproof to 1 meter for 30 minutes
- Stabilization legs provide balance on uneven surfaces
When you need maximum illumination with a wide beam to light your work area, the E-Flood LiteBox HL provides a blast of 5,300 lumens. Economical and compact, it features selectable diffuser settings, and three different lighting modes enable you to set the beam width, intensity and run time you need for your task. Rapid deployment, a 90° tilting head and indefinite run time using its 12V DC power cord ensures that you will always have light where and when you need it.

**BATTERY:** Zero-maintenance 12V, 7.2 Ah sealed lead acid  
**SIZE:** 12.3" (31 cm)  
**WEIGHT:** 10.4 lb (4.7 kg)  
**COLOR:** Orange

---

**3,350 LUMENS**

With a focused beam of light that illuminates objects 1 mile away, you’ll run out of things to see before your run out of light with the HID LiteBox. Our most powerful hand lantern at 1 million candela, its fully articulating head can be aimed precisely at a target. This high intensity search light is a good choice for the "trouble truck" or for storm response teams. The included Flood Lens turns this high powered hand lantern into an effective scene light for underground work and staging activities.

**BATTERY:** Zero-maintenance 12V, 7.2 Ah sealed lead acid  
**SIZE:** 14.9" (38 cm)  
**WEIGHT:** 10 lbs 1.6 oz (4.6 kg)  
**COLOR:** Orange or Black

---

**10 ft (3 meters) 12V DC power cord plugs into port at rear of light to provide duration lighting**

Battery will continue to charge while plugged into a 12V DC power source.
Six C4® LEDs spread light over an entire area. An extended run time – 18 hrs. on low – allows you to keep large areas illuminated no matter how long your shift lasts. With its swivel head, you can point light right where it’s needed. Includes heavy duty shoulder strap.

**E-FLOOD LITEBOX**

- **WEIGHT:** 7 lbs 14.4 oz (3.58 kg)
- **COLOR:** Orange, Yellow or Beige
- **LUMENS:** 540 (High), 330 (Low)
- **CANDELA:** 55,000 (High), 32,000 (Low)
- **DISTANCE:** 469m (High), 358m (Low)
- **RUN TIME:** 7h (High), 15h (Low)

Three C4® LEDs spotlight an area with focused bright light so you can search or inspect from a distance. Its beam produces a concentrated, bright light. It features a swivel head that makes it easy to inspect high bays, ceilings, and out-of-the-way places. IPX4 water-resistant. Includes heavy duty shoulder strap.

With severe weather comes power outages, making it wise to plan for emergencies. Under severe weather conditions, portable systems offer an advantage when it becomes necessary to move about a facility to power down or disconnect critical equipment, retrieve sensitive documents, or guide employees through remote areas that lack adequate backup lighting.

The solution is Streamlight’s line of rechargeable, portable lanterns that are equipped with “smart” power failure circuitry. When the power goes out, these rugged, dependable workhorse lighting tools switch on, helping to light the way to safety in pitch dark conditions. Ideal for evacuation team leaders and for placement in planned evacuation routes/areas, stairways and hallways.

12V DC power cord provides unlimited run time
Emergency signal: runs 82 hours

Use the ultra-bright, long-distance beam of the Waypoint as a spotlight to illuminate far-off objects. This pistol grip light has a trigger-style switch, as well as an integrated stand so that you can set it down for hands-free lighting. It’s the perfect tool for line inspections or looking for addresses or any other objects you can’t get close to easily.

BATTERY: 4 “C” batteries (not included)
SIZE: 6.75" (17.15 cm)
WEIGHT: 1 lb 12.8 oz (816 g)
COLOR: Yellow or Black

44900 includes 12V DC power cord* - Yellow
44902 includes 12V DC power cord* - Black

ACCESSORIES
44908 44908 Polymer Storage Mount
44903 44903 12V DC power cord

*12V DC power cord does not charge batteries

Special Features:
- Unbreakable, O-ring sealed polycarbonate lens
- IPX4-water-resistant; 1m impact-resistance tested
- Integrated stand for hands-free lighting
The rechargeable Waypoint produces a far-reaching beam that reaches into corners and illuminates high ceilings and other out-of-reach places. IPX8 - waterproof to 2m and it floats. High, medium and low modes provide the right amount of light and run time needed to complete your task. An integrated stand is easy to set up for hands-free area lighting. Fully recharges in 4 hours.

**Special Features:**
- Unbreakable, O-ring sealed polycarbonate lens
- IPX8/waterproof to 2 meters
- Integrated stand for hands-free lighting

**BATTERY:** Lithium Ion

SUPER SIEGE®

1,100 LUMENS

The Super Siege rechargeable scene light/work lantern provides 360° of bright light that illuminates an entire scene. An 8800 mAh rechargeable lithium ion battery supplies the power to charge your Streamlight flashlights, smartphones and tablets. Remove the globe cover and hang the Super Siege upside down by its D-ring for large area lighting needs. Use the Glare Guard™ to shield light from 1/2 the globe for up-close task lighting. Set it to SOS mode for emergency situations. Working in a grueling environment? No problem! A rubber base keeps it stable on slippery or uneven surfaces, and a watertight storage compartment keeps small items dry.

BATTERY: Rechargeable 8800 mAh Lithium Ion battery
SIZE: 7.5” (19.05 cm)
WEIGHT: 1 lb 14 oz (867 g)

THE SIEGE®

550 LUMENS

The Siege is brighter, more durable, and much more versatile than other emergency/camping lanterns. It’s bright enough to light up a whole campsite. It runs for over 30 hours on high and over 12 days on low! Its handle and D-rings allow you to hang it or clip it almost anywhere, upright or inverted. It has 3 white light settings, a red light for softer, less intense light, and an SOS mode. Remove the top for brighter light. Battery indicator flashes to alert you to low battery.

BATTERY: 3 "D" alkaline

SIEGE® AA

200 LUMENS

The Siege® AA lantern features one C4® power LED and two red LEDs. There are five output modes and a battery level indicator built into the on/off button. With the outer lantern globe in place, the light will float. Use the lantern with or without the outer globe cover. Remove the outer globe and hang the body upside down by the D ring for large area lighting needs. Battery indicator flashes to alert you to low battery. Battery replacement is a breeze with the center post orienting the battery cover correctly every time.

STREAMLIGHT JR.® LED

This is a classic personal light featuring a 2 AA-sized aluminum body with non-slip knurled grip. With C4® LED technology, it’s brighter than most traditional 2 AA flashlights, and it also has good beam distance capability (96 m). It’s small enough to fit easily on your belt or tuck into a tool box when you go out on inspections and perform repairs.

**LUMENS:** 140

POLYTAC®

For this light, we took the blinding virtues of our tactical defense lights and plugged them into a super-tough, heat-resistant nylon polymer body. The result? A compact, exceptionally durable, nonmetallic light you can use around electrical panels and equipment, high heat sources or in adverse weather conditions. Small enough to tuck in a pocket or tool pouch, the PolyTac is always handy.

**BATTERY:** 2 CR123A lithium  
**SIZE:** 5.34" (13.56 cm)  
**WEIGHT:** 4.2 oz (121 g)  
**COLOR:** Black or Yellow

**POLYTAC® 90**

You can clip the versatile PolyTac 90 to your gear, hang it from a ladder, use it as a headlamp (with optional headstrap), or stand it on end and with its right-angle head, you can aim the beam where you need it. This is a super-bright light with a head mounted, push-button switch that is easy to use with gloves. In addition, it uses lithium batteries, allowing performance in extreme temperatures.

**BATTERY:** Two CR123A Lithium  
**SIZE:** 5.22" (13.3 cm)  
**WEIGHT:** 4.1 oz (116 g)  
**COLOR:** Yellow

VANTAGE® 180

Giving you the ultimate versatility in a firefighter’s light, the Vantage 180 goes instantly from a helmet light to a handheld light to a right-angle light. So wear it, hold it, clip it, or even hang it!

Rear LED taillight changes from blue to white: blue LED for helmet mount use and visibility in heavy smoke; white LED for a downcast flood light to see what’s at your feet; switches from blue when head is at a 90° angle.

Integrated stainless steel multi-function clip for a variety of attachment methods and mounting positions. Turnout gear attachment hook. IPX7 waterproof to 1m for 30 minutes; 1m impact resistance tested.

The TWIN-TASK SERIES are multi-use flashlights featuring two unique LEDs that provide either a spot beam, a flood light or a combination of both. Use the spot beam for distance lighting. When you have an up-close task, use the flood light for smooth, diffused illumination without glare.

These anodized aluminum-bodied lights are built for rugged use and come equipped with a nylon lanyard to minimize “dropped tool hazards.”

These lights are popular with HVAC, electrical, construction and general maintenance technicians and supervisors. They carry the same limited lifetime warranty of all the lights in the Streamlight product line.

KEYMATE® USB

Bring 35 lumens to your workspace with this unique area light. USB rechargeability gives you extended use and low operating costs. Features a lithium polymer rechargeable battery. Spring-loaded clip attaches to key rings, zippers, lanyards, etc. Includes 5" USB cord. Low, high and emergency flash modes.

**BATTERY:** Lithium polymer  
**SIZE:** 2.9" (7.3 cm)  
**WEIGHT:** 1.9 oz (53.8 g)  
**COLOR:** Black

73200 with 5" [12.7cm] USB Cord—Black

- Easily charge from your computer, EPU-5200 or other USB power source.
- Imprintable - Add your logo for corporate gifts, safety awards, etc.
- Multi-function push-button switch with charger indicator LED: Red = charging; Green = charged

THE LOGO™

Weighs less than half an ounce and has 3 light levels plus a blink mode that will flash for 45 hours. To conserve battery, it automatically turns off after 6 minutes in high, medium or low modes. Weather-resistant. 1 meter impact-resistance tested.

**LUMENS:** 10 (white)  
**RUN TIME:** 45h on blink

**BATTERY:** 2 CR2016 lithium coin cell  
**SIZE:** 1.8" (45.7 mm)  
**WEIGHT:** .37 oz (10.7 g)  
**COLOR:** Black

73100 with coin cell battery—Black

- High-intensity white LED
- Non-rotating snap hook
- Co-branding: Reverse side is imprintable with your corporate identity
- Imprint area approx .63" x .38"

Visit www.streamlight.com for full warranty information

---

Imprintable - Add your logo for corporate gifts, safety awards, etc.

#73100 - THE LOGO with lithium batteries

**LUMENS:**

**RUN TIME:**

- High for brightest light - 10 lumens
- Medium for bright light and longer run times - 5 lumens
- Low provides extended run times for when less light is needed - 2.5 lumens
- Blink to signal your location

Blink Mode will flash continuously for 45 hours. High, Medium and Low modes run for several hours of intermittent use.

The light will flash after 4 minutes and turn off after 6

- Press center quickly for on, off and mode changes
- Press once for High, twice for Medium, three times for Low, and four times for Blink
- Press and hold for momentary mode
Personalize Your Lights

Make your Streamlight flashlights a little more personal! We offer custom engraving for our products. Whether it's for a safety award, to celebrate a corporate event, show appreciation to an employee or just display your logo, we can personalize your flashlights to suit your needs. Here are a few engraving suggestions:

- Annual Safety Award
- Company Logo
- Corporate Event
- Employee Appreciation
- Department
- Departmental Patch
- Website
- Address
- Phone number

Streamlight's Imprinting Department

If you have artwork ready to go, our Imprinting Department will work with you to fit the design to your flashlight of choice. We can also customize an imprint for you with one of the following fonts:

Amerigo Bold
Brush Script Regular
Futura Lite
Swiss 721 Roman

FAQs

Which Streamlight flashlights can be engraved?
- Most Streamlight's aluminum flashlights can be laser engraved.

How large will the engraved image be?
- It depends upon the dimensions of the engraveable area of each light (noted on imprint guides).

Where on the flashlight will the engraving appear?
- The location of the engraving depends upon which light is being personalized.

How long will it take to get my order?
- Please allow up to an additional 1-2 week lead time for most orders.
  For larger orders call for a lead time estimate.

What file format do you require for supplied artwork?
- Supplied artwork format must be a black and white bitmap (.bmp) file.

How to Order

To have your product engraved, note "Custom Imprinting" on your order form and include your camera-ready artwork (.bmp file) or use one of our typefaces. A Customer Service Representative (CSR) will contact you and send an engraving order form for your approval and signature.

Engraving fees and minimum order requirements apply. Consult with your CSR to determine price and lead time.

For each color Siege AA sold, we donate $2 to the organization associated with that light. See above for information about each cause.
STREAMLIGHT CARES:
The products that support causes that matter.

Congress created the National Fallen Firefighters Foundation (NFFF) to lead a nationwide effort to honor America’s fallen firefighters. Since 1992, the non-profit foundation has developed and expanded programs that fulfill that mandate. Their mission is to honor and remember America’s fallen fire heroes and to provide resources to assist their survivors in rebuilding their lives. For more information, visit www.firehero.org.

By purchasing this product you are helping to make a difference in the rebuilding of the lives of surviving families and affected co-workers of law enforcement officers killed in the line of duty. In addition to rebuilding lives, C.O.P.S. provides training to law enforcement agencies on survivor victimization issues and educates the public of the need to support the law enforcement profession and its survivors. For more information, visit www.nationalcops.org.

The Breast Cancer Research Foundation® (BCRF) is an independent 501 (c) (3) not-for-profit organization whose mission is to achieve prevention and a cure for breast cancer in our lifetime by providing critical funding for innovative clinical and genetic research at leading medical centers worldwide, and increasing public awareness about good breast health. For more information, visit www.bcrfcure.org.
