RECHARGEABLE LIGHTING SYSTEMS

EXPERIENCE THE COST SAVINGS

STREAMLIGHT®

TRANSFORM YOUR
HIGH-PERFORMANCE LIGHTING TOOLS

INTO RECHARGEABLE SYSTEMS THAT OUTSHINE AND OUTPERFORM FLASHLIGHTS WITH TRADITIONAL BATTERY PLATFORMS
AND SAVE MONEY IN THE PROCESS!

STREAMLIGHT OFFERS A LINE OF MULTI-FUEL LIGHTING TOOLS that accept either CR123A lithium batteries or SL-B26® protected Li-Ion USB-C rechargeable battery packs. Choosing a rechargeable flashlight system nearly eliminates battery replacement and recycling costs, while dramatically decreasing downstream waste.

- Our "X" SERIES of products provide the perfect blend of performance, durability and cost savings.

  If you replace one pair of CR123A batteries each week for 52 weeks, that's 104 disposable batteries per year vs. a single SL-B26 rechargeable battery pack. If your organization has 100 lights in service, the SL-B26 rechargeable system could keep 10,400 batteries out of the waste stream and save your organization tens of thousands of dollars!

- Streamlight's proprietary SL-B26 battery packs feature an integrated safety circuit that protects from overcharge/overdischarge. They charge in 5 hours or less and feature a charge status indicator.

- A variety of power sources can be used to charge this battery platform including USB power cords, charge cradle or bank charger, portable power pack or 12V DC automotive power.

- The rechargeable capabilities of the SL-B26 battery pack gives you an easy field replaceable battery system providing one to use and a fully recharged back-up.

SL-B26 battery packs in eight unit bank charger

NFPA
Charging rack meets requirements of NFPA 1900-11.1.11.2 (2024) mounted in any position

EIGHT-UNIT LI-ION BANK CHARGER

Charge up to eight batteries with Streamlight's lithium-ion battery bank charger. Each charge bay securely holds the battery in place - ideal for mounting on trucks. Low-profile housing (1"; 2.54 cm) requires minimal mounting area.

Charge time = 5.25 hours

Charge indicators over each battery:
- Red = charging
- Green = charged

Charges with or without optional charge cradle. Use the charge cradle for storage as well as to charge your batteries.

SURVIVOR PIVOT® USB

The multi-function Survivor Pivot USB provides budget-friendly rechargeability combined with a dual-beam and 90-degree articulating head. Its spot beam uses a cool white, high-power LED for maximum distance illumination and its flood beam is angled downward for area illumination. It uses an SL-B26® battery pack that is easily interchangeable with alkaline batteries as a backup on-scene. IP67-rated; dust-tight and waterproof to 1m for 30 minutes; 2m impact resistance tested. Class I, Div. 2 safety-rated.

STINGER® 2020

The next evolution in high-performance, work-ready flashlights produces 2,000 lumens. Its aluminum alloy body with textured side panels and an anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use. Select high for brightest light or low for extended run time.

An SL-B26® USB rechargeable battery pack offers multiple charging options using existing Stinger smart chargers and bank chargers to charge inside the light; use a dual USB cord to charge the battery pack outside the light or a Li-ion battery bank charger to charge multiple batteries at once. IPX7-rated; waterproof to 1m submersion, corrosion-resistant sealed glass lens.
