LEADING THE INDUSTRY
BECAUSE WORK IS TOUGH ENOUGH WITHOUT HAVING TO WORRY ABOUT YOUR LIGHTING.

DUTY & UTILITY LIGHTING SPECIALISTS
BECAUSE WORK IS TOUGH ENOUGH WITHOUT HAVING TO WORRY ABOUT YOUR LIGHTING.

Streamlight Stingers, Strions and SL lights are trusted by LEO, professional mechanics and tradesmen around the world for a simple reason... they’re the best. With the performance and features that they need and the durability they can depend on.

THE NEXT EVOLUTION IN HIGH-PERFORMANCE FLASHLIGHTS.
STINGER® 2020

The next evolution in high-performance, work-ready flashlights produces 2,000 lumens. Its aluminum alloy body with textured side panels and an anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use. Select high for brightest light or low for extended run time. A long-lasting SL-B26 USB rechargeable battery pack offers multiple charging options using existing Stinger smart chargers and bank chargers to charge inside the light; use a dual USB cord to charge the battery pack outside the light or a Li-ion battery bank charger to charge multiple batteries at once. IPX7 waterproof to 1m submersion, corrosion-resistant sealed glass lens. TAA Compliant.

Independently functioning head-mounted and tail switches
This family of flashlights delivers the optimal balance of bright, far-reaching beam, ample peripheral light, and long run times. When you're out in the field or on any job that requires light for long periods, these are the flashlights you want by your side. Their brightness, power, performance, cost, and extended run times make them perfect for a variety of tasks.

**TRADITION SERIES**

**HPL SERIES**

These High Performance, High Lumen flashlights throw bright light a long distance. They have a bigger hot spot that casts more light on the target with more peripheral light. They're great for illuminating the entire length of a dark alley, for any task that requires a far-reaching beam.

**HL SERIES**

These High Lumen flashlights have a wide, side-to-side beam. They illuminate an entire area, including what may be hiding in corners. They perform like floodlights, illuminating a whole room, vehicle, or any area with bright, revealing light.

**DIEFENT KINDS OF BEAMS FOR DIFFERENT KINDS OF TASKS.**

WANT TO SEE THESE BEAMS IN ACTION? Visit Streamlight's www.beamdemo.com and see the differences for yourself.
THE STINGER SERIES IS ALWAYS ON THE JOB.
IT’S A DUTY LIGHT.
BUILT WITH PRECISION & PERFORMANCE.

STINGER DS® HPL
STINGER® HPL

The Stinger® HPL has combined two intensely bright illumination patterns into one multi-tasking beam giving you clarity up-close and deep into the horizon. Its long distance beam reaches 438 meters and the 800 lumen beam provides side to side visibility to fill in up-close areas and corners.

IN THE GARAGE, ON THE WORK TRUCK OR IN THE FIELD, STREAMLIGHT DELIVERS LIGHT WHERE YOU NEED IT.

At Streamlight we innovate lighting solutions that make sense. We build lights that put function right alongside performance and convenience. That's exactly what our family of worklights is designed to deliver. With innovative mounts, charging systems and light delivery, we make it easier for you to get the job done.
THE STINGER SWITCHBLADE SPENDS AS MUCH TIME UNDER THE CAR, ON THE WALL, AND COVERED IN GREASE AS YOU DO. A PERFECT MATCH.
Compact and extremely powerful, the Stinger Switchblade® rechargeable area light offers three (3) lighting options. The blade of the Switchblade can rotate 180° on the body. Soft detents will hold the blade in your desired position, and the light will stand on its tail with the light bar in any position. There are multiple ways to hook and hang the light. Use the hooks on the base plate or the retractable hook for many hanging options. The weighted base also includes magnets that will hold the light (in any orientation) to provide task-specific illumination.

Hands-free applications:

- Tail-end magnet, stowable hang hook and stable foot

Double-sided light bar:

1. 90 CRI LEDs – Color-Rite Technology - allows you to distinguish between similar colors - for paint matching, checking wires, etc.

2. Cool white LEDs for bright, white light

3. UV LED for leak detection

Dual charging options:

- Charge using existing Stinger chargers
- Charge via USB source

180° rotating light bar aims the beam where you need it.

SCENE LIGHT/LANTERN SERIES

SCENE LIGHTING SPECIALISTS
FROM FIRST ON THE SCENE TO THE LAST ONE OUT OF THE TUNNEL, HEROES TRUST STREAMLIGHT.

Lanterns are part of our history and part of our future. In 1973, Streamlight pioneered portable lighting with our million candlepower SL and for the past 45+ years we continue to forge new ways to provide light where it’s needed.
STREAMLIGHT
SCENE LIGHT/LANTERN SERIES

LIGHT UP THE WORLD ANYWHERE YOU WANT.

PORTABLE SCENE LIGHT
PORTABLE SCENE LIGHT EXT

The Portable Scene Light provides rapid deployment on site, and it goes anywhere. With its 90° swivel neck, it’s easy to shine light into the most out-of-the-way place. The head extends to 72” within seconds. It provides 3 levels of lighting and substantial run time to last through several shifts, even days. The unique diffuser lets you select a flood or spot beam in all three levels. It’s designed to adapt to tight spaces, but rugged enough to be stable in wide open terrain or steps. The regulated light provides consistent output throughout the life of the battery. It’s an indispensable tool for first responders, construction crews, and utility workers.

PORTABLE SCENE LIGHT
BATTERY: Zero-maintenance, sealed lead acid. Can also be powered by 12V DC power cord.

The Dualie Waypoint® light offers dual light technology with a forward facing spot beam and a bottom facing flood light that can be used individually or at the same time. See what's ahead of you and right in front of your feet with the Dualie Waypoint. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls. Multiple hands-free uses - hang it over a door, stand it on its kickstand or hang it with integrated D-ring. The ergonomic handle hooks over any door, pipe, bar, cable or ladder rung for hands free operation. It also includes and integrated stand to make the light perfect for any lighting need. The light is sealed and floats, so it's great for wet applications.

THE SIEGE® LANTERN

The Siege is brighter, more durable, and much more versatile than other emergency/camping lanterns. It’s bright enough to light up a whole campsite. It runs for over 30 hours on high, and over 12 days on low! Its handle and D-ring allow you to hang it or clip it almost anywhere, upright or inverted. It has 3 white light settings, a red light for softer, less intense light, and an SOS mode. Remove the top for brighter light. Battery indicator flashes to alert you to low battery.

- Unbreakable lens.
- Rugged, non-slip base.

Versatile design features rugged carry handle and D-rings clip to hang virtually anywhere.
SIEGE® AA LANTERN

The Siege® AA lantern features one white LED, and two red LEDs (or two blue LEDs on the blue C.O.P.S. model). There are five output modes and a battery level indicator built into the on/off button. With the outer lantern globe in place, the light will float. Use the lantern with or without the outer globe cover. Remove the outer globe and hang the body upside down by the D-ring for large area lighting needs. Battery replacement is a breeze with the center post orienting the battery cover correctly every time.

RIGHT-ANGLE SERIES

RIGHT-ANGLE LIGHTING
WHETHER IT’S ON THE BODY OR ON THE HELMET, STREAMLIGHT DELIVERS THE TRUSTED OPTIONS.

Ask any firefighter what light they trust most... and the likely answer is the Streamlight Survivor. And while we’re proud of that fact, we’re also not one to let it rest at that. We continue to develop products that keep firefighters and industrial workers safe. Because as we all know, the work is never truly done.

Survivor®

The leading Class I, Div. 1 right angle, clip-on flashlight features a slim profile and a dependable clip/hook for more accurate light orientation. 4 lighting modes include high, low, flash, and a moonlight mode for low-level lighting that runs for 20 days. Spring-loaded clip easily attaches to belts and harnesses. Comes with two special, interchangeable Smoke Cutter® plugs that help create your preferred beam pattern: Black plug significantly reduces peripheral light for a tighter beam while the Amber plug reduces peripheral light and eye fatigue caused by glare. Available in alkaline and rechargeable models.

All openings are O-ring sealed for weather-resistance. IPX4 rated water-resistant. 2 meter impact resistance tested. Unbreakable, scratch-resistant polycarbonate lens. Designed for easy operation even with heavy gloves.

VANTAGE® 180 X USB
VANTAGE® 180 X

This multi-fuel, multi-function light is the most versatile rechargeable firefighter’s light. It’s a helmet mounted light, right angle light and a hand-held flashlight. The Vantage 180 X USB is a rechargeable system that includes a Streamlight SL-B26™ protected Li-Ion USB rechargeable battery pack with integrated USB port. The Vantage 180 X includes two CR123 batteries. Easily attaches above or below the brim of most helmets providing a bright main white LED and blue safety taillight. Quickly detaches for hand-held and clip-on right angle light with white taillight and downcast light to see what’s at your feet. IPX7 waterproof.

Head articulates 180° to aim the beam.

Use as a helmet light. Easily attaches above or below brim. No tools necessary to quickly remove for use as a hand-held flashlight.

Rear LED Taillight changes from blue to white:
- Blue LED for helmet mount use and visibility in heavy smoke
- White LED for a downcast flood light to see what’s at your feet; switches from blue when head is at a 90° angle

Includes “quick release” helmet bracket and hex key.

Congress created the National Fallen Firefighters Foundation to lead a nationwide effort to honor America’s fallen firefighters. Since 1992, the non-profit foundation has developed and expanded programs that fulfill that mandate. Their mission is to honor and remember America’s fallen fire heroes and to provide resources to assist their survivors in rebuilding their lives. For more information, visit www.firehero.org.

SAFETY-RATED SERIES

SAFETY-RATED LIGHTING SPECIALISTS
BECAUSE YOU DON’T GET TO CHOOSE WHERE IT’S GOING TO BE DARK.

Streamlight builds more safety-rated lights to give you more options in hazardous locations. With our comprehensive product line of Dualies, ProPolymers, Knuckleheads and headlamps — you have a full selection of safety-rated lights no matter your lighting need... right-angle, wearable or with laser pointing options.
The National Electric Code (NEC) defines hazardous locations by “class” and “division.” There are three classes:

**CLASS I** locations are made hazardous by the presence of flammable gases, liquids or vapors.

**CLASS II** locations are hazardous because combustible dusts are present.

**CLASS III** locations contain easily ignitable fibers or flyings.

The “Division” designation refers to the likelihood that ignitable concentrations of flammable materials are present. There are two divisions:

**DIVISION 1** designates an environment where ignitable concentrations of flammable gases, liquids, vapors or dusts can exist some of the time or all of the time under normal operating conditions, or where easily ignitable fibers and flyings are manufactured, handled or used.

**DIVISION 2** locations are where ignitable concentrations are not likely to exist under normal operating conditions or where Class 3 materials are stored or handled.

Hazardous classes are further defined by “groups” based on the physical properties of their combustible materials. These groups include (but are not limited to):

**GROUP A** Acetylene
**GROUP B** Hydrogen
**GROUP C** Ethylene, carbon monoxide
**GROUP D** Propane, gasoline, naphtha, benzene, butane, ethyl alcohol, acetone, methane
**GROUP E** Metals including aluminum, magnesium (Div. 1 only)
**GROUP F** Carbonaceous dusts including coal, carbon black, coke
**GROUP G** Dusts not included in E and F including wood, plastics, flour, starch or grain dusts
WHY ARE SAFETY RATINGS IMPORTANT?

Simply put, there are several types of locations in which it can be extremely dangerous to use any light that has not been specifically designed—and approved—for that kind of location. These are areas where fire or explosion hazards may exist due to the presence of flammable gases, liquids, vapors, dusts, or ignitable fibers or flyings. If you will be using a flashlight in any potentially hazardous location, it is critical that your light be safety-rated for that specific kind of environment.

Streamlight also offers safety-rated lights that comply with the European Union (EU) Directive 2014/34/EU (ATEX) for products intended for use in potentially explosive atmospheres within the EU member countries. Please visit our website, streamlight.com for more information on ATEX-rated products. We also have a catalog of ATEX-rated products available upon request.
The Dualie® Family of Lights
Div. 1, Intrinsically Safe,
Dual Beams,
Hands-Free & Incredibly Versatile.

Dual Beam Design:

The Dualie design allows you to see what’s ahead of you and right in front of your feet. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls.

The Dualie Laser features a simultaneous spot beam and laser pointer allowing you to illuminate the work area and pinpoint out-of-reach objects.

Dualie® Rechargeable

The Dualie® Rechargeable features a lithium ion battery and dual beams — forward facing LED spot beam and a side facing LED flood light that can be used individually or at the same time for enhanced safety. Integrated, non-protruding spring loaded belt clip contained within body outline.
