Subject: COVID-19 Update and Business Continuity

The Governor of the Commonwealth of Pennsylvania has ordered the closure of all businesses that are not life sustaining as of 8pm, Thursday March 19th.

In response to the order, Streamlight has discontinued activity in our operations and warehouse facilities for the time being. We have moved to a remote working model for all other functions. Customers and distributors are able to contact Streamlight through normal channels.

We are working with government officials to confirm classification of Streamlight as an essential business so that we can continue to serve our first responder, public safety and military/federal government customers and distributors. Updated communications will be posted here as appropriate.

Thank you for your understanding during this difficult time.
