

# STREAMLIGHT Bandit USB Headlamp

The Streamlight Bandit USB Headlamp is a hands-free worklight that allows technicians to have continuous light while they work.

The **Streamlight Bandit USB Headlamp** offers a lightweight, compact, hands-free area light that is USB rechargeable. The low-profile headlamp offers 180 lm on high and a run-time of 9.5 hours on low. The large top button allows for easy switching between the light's high, low and flash modes. The Bandit features a polycarbonate body and lens, weighs 1.3 oz with the attached headband and is 2.7" long. The light is IPX4 rated weather-resistant and impact-resistant to 2m. The headlamp is available in safety yellow or black.

## Manufacturing specs

- The Bandit is designed and engineered in the U.S.A. and made in China.
- Features impact-resistant polycarbonate construction, is IPX4 weather-resistant and is 2m impact-resistant tested
- Weighs 1.3 oz
- Two-hour run-time on high, and a 9.5-hour run-time on low

## Selling points

- The LED headlamp includes a visor and a clip.
- The Bandit is ultra lightweight at 1.3 oz, and low profile.
- Offers 180 lm of even, diffused light at high output
- Offers a run-time of up to 9.5 hours
- Designed for a variety of personal and professional uses

## Application

The Streamlight Bandit USB Headlamp is a lightweight hands-free area light that is great for working under the hood or the vehicle.

## Origin

The Bandit USB Headlamp was developed in response to customer requests for bright, rechargeable headlamps. The Bandit features common customer requests, such as being USB rechargeable, offering multiple battery options and being lightweight with high lumen output.

## Storage and display

The Bandit ships in corrugated master cartons with six units per pack. Streamlight recommends hanging the blister packed packages on pegs. The blister package offers a "Try Me" callout so that customers can see the brightness of the LED.

## Features and benefits

- Designed using lightweight and weather-resistant materials
- A rubber plug keeps dirt and debris out of the micro USB charging port.
- Provides three lighting modes: high, low and emergency flash
- Great for close-up work
- Technicians can use the snap-in hat clip adapter to attach the light to a cap brim.

## Suggested retail price

\$35
