

**SL-B9®****LI-ION RECHARGEABLE BATTERY PACK WITH INTEGRATED USB-C CHARGE PORT**

- DESCRIPTION:** The Streamlight SL-B9® is a protected Li-Ion rechargeable battery pack with an integrated USB-C charge port. It offers an economical alternative to a disposable CR123A cell for Streamlight flashlights that are designed to accept both. The integrated USB-C charge port features LED status indicator lights and can recharge the battery within 2.5 hours. The SL-B9® battery pack can be recharged by any Streamlight USB power adapter or most other USB power sources.
- DIMENSIONS:** Length: 1.36 in (3.45 cm)                      Diameter: 0.67 in (1.70 cm) maximum
- WEIGHT:** 0.7 oz (19.8 g)
- BATTERY:** Protected lithium-ion rechargeable battery, 3.6V, 850mAh, with on-board safety control circuit, rechargeable up to 300 times.  
WARNING - EXPLOSION RISK, BURN AND FIRE HAZARD. Do not use SL-B9® batteries in firefighting apparatus or fire situations. Do not expose SL-B9® battery to temperatures greater than 140F (60C).
- CHARGE INPUT:** Built-in USB-C input charges from Streamlight AC/USB adapters and most other USB sources. Battery can also be charged using Streamlight's 8-unit SL-B9® Li-Ion battery bank charger.
- CHARGE TIME:** 2.5 hours maximum using the USB-C input
- FEATURES:** Charge status indicator built into the top of the battery.  
Red = Charging, Green = Charged.  
Integrated safety circuit protects battery from over discharge and overcharge.
- WARRANTY:** Streamlight's Limited 2-Year Warranty
- APPROVALS:**   Meets applicable United Kingdom and European Community Directives  
 CEC Compliant
- OPTIONAL ACCESSORIES:** Streamlight AC/USB wall adapters, USB-C cord, 8-unit battery bank charger
