

TLR® RM 2 LASER-G RAIL MOUNTED LIGHTING SYSTEM

1,000 Lumen Long Gun Light with Integrated Green Laser

The low-profile TLR RM 2 Laser-G features a longer reaching, tighter beam. It's designed to produce more candela while maintaining lumen output. Independently operating push-button and remote pressure switches provide the security of knowing you'll always have light.

- 1,000 lumens; 22,000 candela; 297m beam; runs 1.5 hours (LED only or LED/Laser); strobe runs 3 hours
- HPL beam with enhanced candela
- White LED with integrated 510-530nm green laser; runs 11 hours (Laser only)
- Mode toggle switch for Laser only, Light only, or Light/Laser combo
- Features independently operating push-button and remote pressure switches
 - Remote pressure switch exits at 90° providing improved wire routing while preserving rail space
- Safe-off feature prevents accidental activation; saves batteries
- Engineered optic produces a concentrated beam with optimum peripheral illumination
- Securely attaches to long guns with **MIL Standard 1913 rails**
- Packaged as a kit, offering everything you need to mount to your long gun; also available as a "light only" model
- Powered by (2) CR123A lithium batteries (included)
- **IPX4** water-resistant
- **Length:** 4.97 in (12.6 cm); **Weight:** 5.11 oz (144.7 g) with batteries
- **Limited lifetime warranty**
