

## VANTAGE® II HELMET LIGHT

### Lightweight and Durable Fire Helmet and Hard Hat Light

The Vantage II is the next generation of reliable hands-free lighting tools for fire helmets and hard hats. It's compact, powerful, shock-proof, and virtually indestructible.

- **Fire Service Model** easily attaches/detaches above or below brim of fire helmets
- **MSA Model** fits MSA Cairns 1010/1044 Traditional Fire Helmets
- **Industrial Model** features a hard hat mount that slides into accessory slot
- **High and Low Modes:**
  - **High:** 350 lumens; 118m beam; runs 2.25 hours
  - **Low:** 135 lumens; 80m beam; runs 5 hours
- Safety features include a blue taillight LED so you can be seen from behind; taillight can be configured to flash or be turned off
- Large push-button switch for easy on/off, even with gloved hands
- “**Safe off**” feature prevents accidental activation, saves batteries
- Swivel clamp to optimize beam location
- Low-profile; won't snag
- Durable aluminum construction that can withstand heat and smoke
- Reflective strips on side of switch housing
- **IPX7** waterproof to 1 meter for 30 minutes
- Uses one (1) CR123A lithium battery (included)
- **Limited lifetime warranty**

WARNING – EXPLOSION RISK, BURN, AND FIRE HAZARD. Do not use SL-B9 batteries in firefighting apparatus or fire situations. Do not expose SL-B9 battery to temperatures greater than 140°F (60°C).
